

## 50mm CPVC 2 and 3 Way Valve

Insnrng's 2 and 3 way valve is manufactured from high quality CPVC to ensure high reliability and low maintenance. They are suitable for 50mm/2" high pressure PVC pipe and utilize a Teflon seal for smooth turning action and minimal maintenance.

Two removable stoppers are supplied which can be installed to preset the stopping position when the valve is used manually. These stops should be removed and discarded when installing a motorized actuator.

The valves are provided with a removable handle for enable the installation of industry standard motorized actuators.

- ⚠ Stoppers may present a pinch point – turn handle with care
- ⚠ Remove and discard stoppers when installing a motorized actuator
- ⚠ Never use a power driver to remove or tighten screws – plastic may strip
- ⚠ When installing motorized Actuators – read instructions for actuator installation and operation

## MAINTENANCE

Little or no maintenance is required however the following maintenance tips should be followed:

- In areas with high levels of sand, soil or other fine debris, remove the seal, clean all internal surfaces thoroughly with warm water and grease the seal with a non-petroleum based lubricant.
- In frequent use applications, particularly when exposed to abrasive elements or high chemical concentrations the rotating seal and shaft O rings may need replacement to maintain a positive water seal.

## WARRANTY

Insnrg warrants that, subject to the exclusions and limitations that follow, the product will be free from defects in materials and workmanship during the warranty period.
